

Tamta Lomidze

Senior Full-Stack Engineer | React · TypeScript · Node.js · Python · AI/LLM Applications

Tbilisi, Georgia (UTC+4) · Open to remote roles with EU & US teams

p6eac.h@gmail.com · +995 510 10 13 06 · LinkedIn · Portfolio

SUMMARY

Full-stack engineer building enterprise web applications and AI-powered products for EU and US companies. I own delivery end-to-end: requirements, system design, frontend and backend development, testing, release and production support. Deep expertise in React and TypeScript; I build backend services and APIs with Node.js and Python. Hands-on with LLM integration, RAG, AI agents and MCP. AI-assisted development (Claude Code) is part of my daily workflow. Shipped production features used by thousands of enterprise users.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript (ES6+), React, Next.js, Redux, Zustand, TanStack Query, TanStack Router, Apollo Client, HTML5, CSS3, Tailwind CSS, SCSS, Styled Components, MUI, Radix UI, shadcn/ui

Backend: Node.js, Express, NestJS, Python, FastAPI, REST APIs, GraphQL, WebSockets, OAuth 2.0, JWT

Databases: PostgreSQL, MongoDB, Redis, SQL

AI & LLM: LLM integration (OpenAI and Anthropic Claude APIs), RAG, embeddings, vector search, AI agents, agentic workflows, MCP (Model Context Protocol), prompt engineering, Claude Code

Testing: Jest, Vitest, React Testing Library, Playwright, Cypress, Pytest

DevOps & Tools: Docker, CI/CD, GitHub Actions, AWS, Git, Vite, Webpack, Figma

Practices: System design, software architecture, performance optimization, code review, Agile/Scrum, cross-functional collaboration, technical leadership

EXPERIENCE

Front-End Engineer (Full-Stack Scope) | LeverX

Feb 2025 – Present

Remote · Teams in Europe & USA

- Lead end-to-end delivery of enterprise applications for EU and US clients: requirements, technical planning, architecture, implementation, code review, release and post-launch support.
- Build full-stack features: React and TypeScript frontends plus backend services and APIs in Node.js and Python (REST, GraphQL, integrations with internal and third-party systems).
- Design and ship LLM-powered features: AI assistants, RAG-based search and Q&A, agentic workflows and MCP integrations, with stable state flows for complex asynchronous behavior.
- Use AI-assisted development (Claude Code, MCP tooling) daily to speed up coding, testing, refactoring and documentation, with code review and automated tests as quality gates.
- **AI-Powered Compliance Platform:** led front-end architecture and feature delivery; integrated conversational AI into complex regulatory workflows; built unit, integration and end-to-end test coverage (Jest, Vitest, Cypress, Playwright).
- **AI Survey Analytics Platform:** architected scalable interfaces for AI-generated insights and data exploration; built performant dashboards with Zustand, TanStack Query/Router, Tailwind CSS and shadcn/ui.
- **Risk-Reporting Tool:** built interactive dashboards and reusable data-visualization components that turn complex risk data into clear, actionable reports for executives (Redux, MUI, REST APIs).

Front-End Engineer | VideowindOw

Aug 2022 – Mar 2025

Remote · Netherlands · Startup

- Owned the full product lifecycle single-handedly: product thinking and feature definition, planning, UX/UI design, front-end development, testing and release.
- Took smart-glass management platforms, digital signage systems and enterprise dashboards from idea to release, partnering with the backend team.
- **Device Management System:** architected workflows for device provisioning, gateway routing and access management; implemented real-time monitoring of distributed device connectivity and status.
- **Digital Display CMS:** built scheduling and layout tools for multi-screen content delivery; optimized video playback and rendering performance for reliable digital displays.

EDUCATION & CERTIFICATIONS

B.Sc. Computer Science — Technical Institute of Amsterdam · Expected 2027

Anthropic Academy — Claude Code, Model Context Protocol (MCP), Agentic Workflows · Apr 2026

Google AI Professional Certificate and **Google AI for App Building** — Google Career Certificates · Apr 2026
